1. Search Setup

- Publish the default Joomla search module or the S5 Live Search module to the 'search' position.
- Set the width of the search to 35 in the module's backend.
- This position was only designed for search modules, not content.

2. Column Menu Setup

- Publish any menu module to your site. The style will automatically take on either white or dark depending on the position it is published to.
- There are no menu style suffixes applied under advanced parameters.
- The menu style should be set to list.
- You may assign any of this template's module class suffixes.
