

The Bridge of Hope template is designed for any type of charity or band style websites. The template includes our standard s5 menu now with the choice of either the S5 Effects or jQuery Javascript libraries. This month we also release the new S5 Image Slider module which allows for up to 10 images and a new edited frontpage article layout.

Features include: the ability to change the overall site and font color to any that you desire, choose fluid or pixel width, new jQuery powered menu system.
