Video Example:

Youtube.com Video - CLICK ME UP: Carl and Ellie

You can use the following video formats: flv, mov, wmv, real and swf. Just insert the URL to the videos in the href of the hyperlink, here is an example of how we did this for a Youtube video:

 Youtube.com Video - CLICK ME UP: Carl and Ellie

YouTube Tutorial: Simply right click on a youtube video and copy the embed code, then paste into a text editor and look for the embed src and use that URL in your hyperlink. <embed src= http://www.youtube.com/v/VGiGHQeOqII
