The S5 Image Set Rotator module is demo'd at the top of this page.

This is a great way to rotate through multiple images at the same time. This module can rotate through up to 5 sets of images, each set can contain 7 images. Each image can contain it's own hyperlink and alt text.

Note - Because this module uses images you do not have to use this on a Virtuemart site. This module will work for any site that you need to display multiple ads.

List of Features:

- Show up to 5 sets of 7 images, 35 images in total
- Set the height, width and margins of the module
- Easily change the padding around the left and right arrows
- Set your own transition time
- Set individual urls, hyperlinks and alt text for each image
- Fully powered by S5 Effects
