

How To Setup the Search Box and Menus

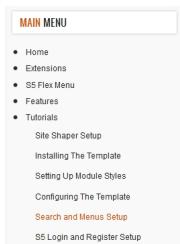

Written by Administrator

1. Search Setup

- Publish the default Joomla search module to the 'right' position.
- Change any of the module's parameters you wish, and that's it.

2. Column Menu Setup

- Publish any menu module to the main body module positions on your site.
- There should be no menu style suffixes applied under advanced parameters.
- The menu style should be set to list.
- You may assign any of this template's module class suffixes.

3. Bottom Menu Setup

How To Setup the Search Box and Menus

Written by Administrator

- Publish any menu to the 'bottom_menu' position.
- There are no menu style suffixes applied under advanced parameters.
- The menu style should be set to list
