## 1. Search Setup

- Publish the default Joomla search module or the S5 Live Search module to the 'search' position.
- Set the margin-left of the search to 165 and margin-top to -21 in the module's backend if using the live search module, adjust these settings as needed
- This position was only designed for search modules, not content.

## 2. Column Menu Setup

- There are no menu style suffixes applied under advanced parameters.
- The menu style should be set to list.
