

S5 Installing an Extension Tutorial

<http://www.shape5.com>

First download the Joomla! 1.5 extension that you wish to install from the Shape5 website – www.shape5.com

Install the extension as follows

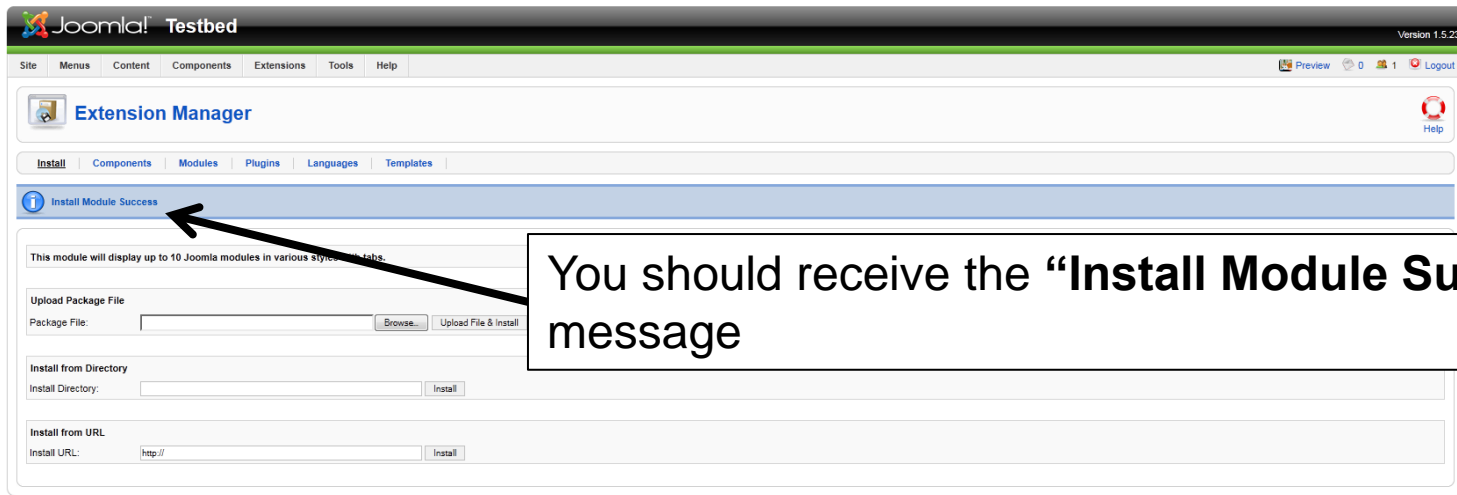

1. Click on **“Browse”**
2. A window will pop up
3. Navigate to the place where you have saved the extension
4. Select the extension you want to install
5. Click **“Open”**

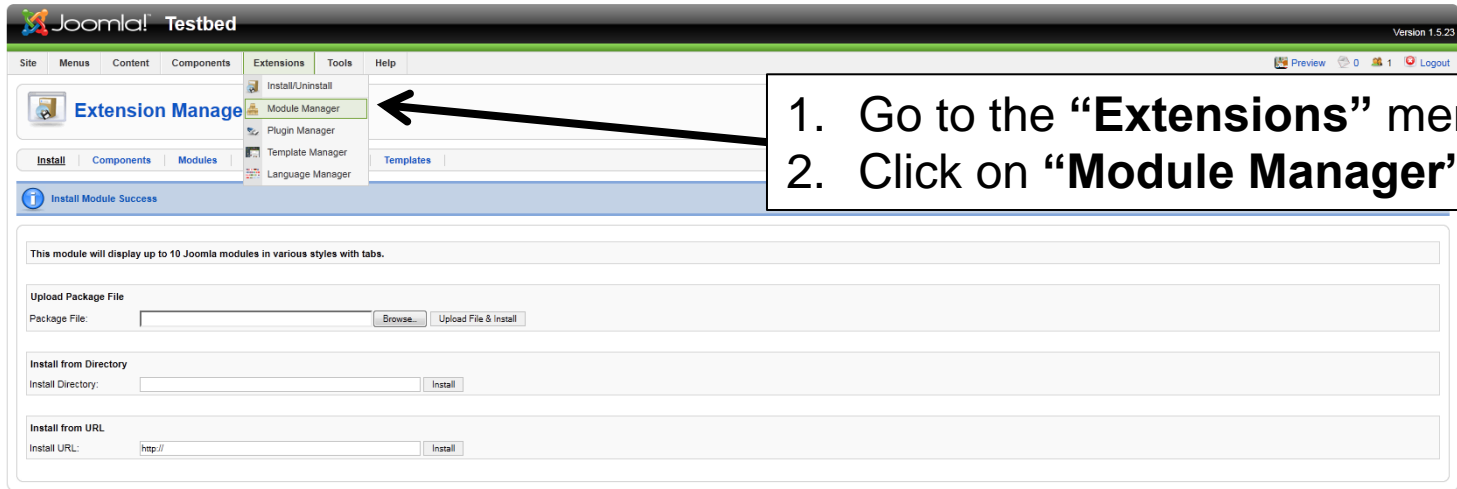

Click on **“Upload File and Install”**

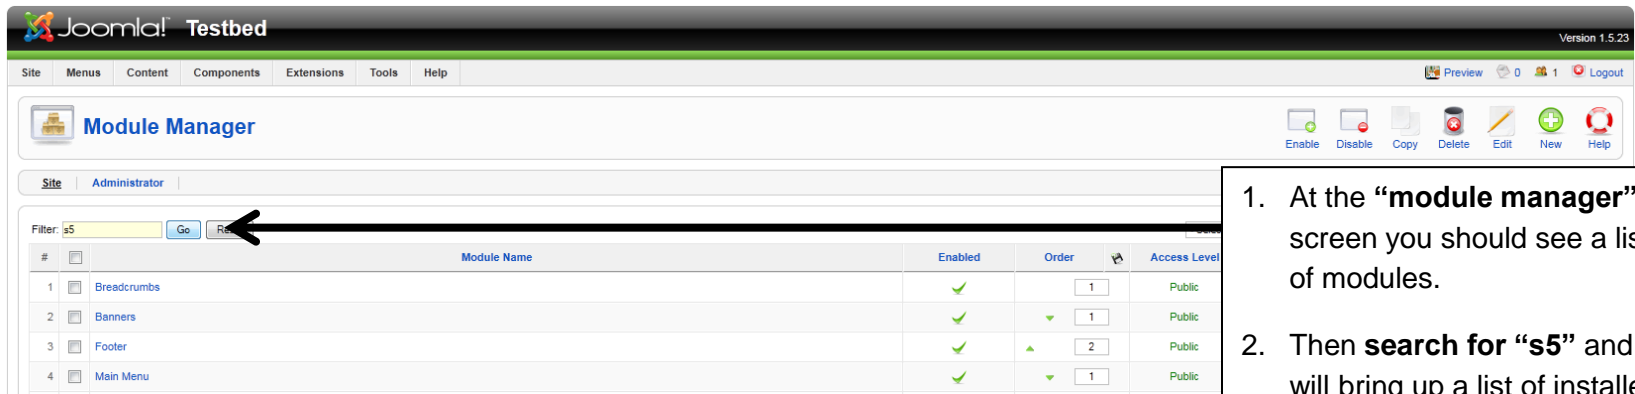

You should receive the “Install Module Success” message

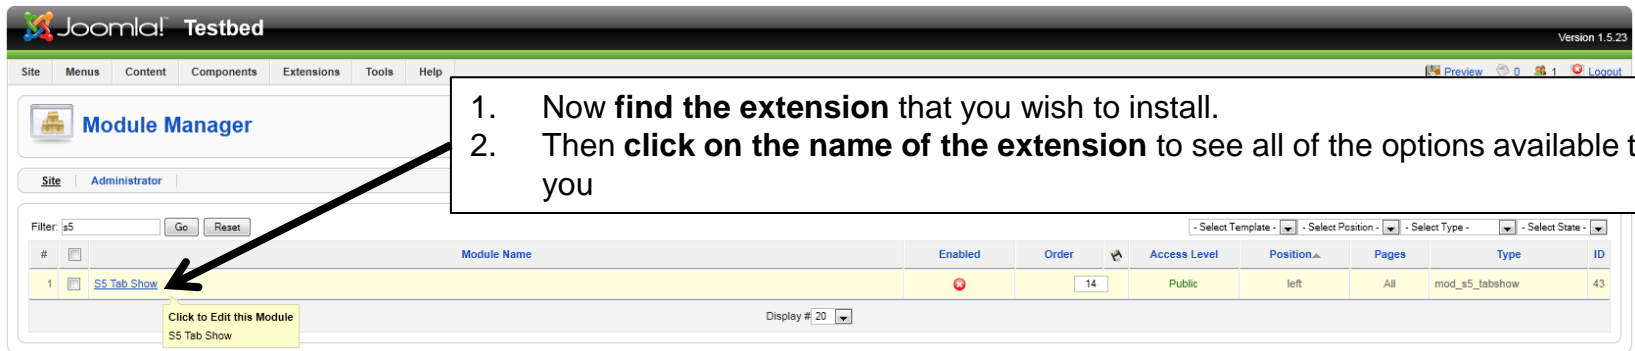

Configure the extension as required

1. Go to the “**Extensions**” menu
2. Click on “**Module Manager**”

1. At the “**module manager**” screen you should see a list of modules.
2. Then **search for “s5”** and it will bring up a list of installed Shape 5 extensions

Joomla! is Free Software released under the GNU/GPL License.

Parameters Section

1. The parameters section will have all of the options for your extension.
2. It is beyond the scope of this tutorial to show you what these options do because they are different for every module. Please refer to the forums and documentation for the individual modules that you require in order to explore these options.
