

Add the class `class="blackhigh"` to any html element like a `a` and then wrap text with it to get the effect like we have on the homepage text.

add class `"s5_button"` to any html element

This is a sample blockquote. Use `<blockquote><p>Your content goes here!</p></blockquote>` to create a blockquote.

```
<div class="s5_greenbox"> <div class="point"> Your text here </div> </div>
```

```
<div class="s5_redbox"> <div class="point"> Your text here </div> </div>
```

```
<div class="s5_bluebox"> <div class="point"> Your text here </div> </div>
```

```
<div class="s5_graybox"> <div class="point"> Your text here </div> </div>
```

This is a styled box. Use `<div class="black_box">Your content goes here!</div>`

This is a styled box. Use `<div class="gray_box">Your content goes here!</div>`

This is a styled box. Use `<div class="red_box">Your content goes here!</div>`

This is a styled box. Use `<div class="blue_box">Your content goes here!</div>`

This is a styled box. Use `<div class="green_box">Your content goes here!</div>`

This is a styled box. Use `<div class="yellow_box">Your content goes here!</div>`

This is a styled box. Use `<div class="orange_box">Your content goes here!</div>`
