---

## 1. Search Setup

- Publish the default Joomla search module, or S5 Live Search module to the 'search' position.
- Set the width of the search to 35 in the module's backend.
- This position was only designed for search modules, not content.

## 2. Column Menu Setup

- Publish any menu module to the main body module positions on your site.
- There should be no menu style suffixes applied under advanced parameters.
- You may apply any module class suffix. Shown above is the -line suffix.
- The menu style should be set to list.
- You may assign any of this template's module class suffixes.

## 3. Bottom Menu Setup
