

Apology to Joomla!

{social_icons}

Recently it has come to our attention that a press release constructed and submitted by a third party SEO company that we have hired was released with false information and to this we owe the Joomla! project and anyone associated with Joomla! an appology! This release stated Shape 5 was affiliated with the Joomla! project and the project was responsible for the creation of our website. This is false, our website was completely constructed by Shape 5.

Shape 5 is an independent company which produces extensions and templates for the Joomla! CMS. Like other companies, it produces software that enhances websites, building on the work of the Joomla! project as its contributors but completely independent of it.

Shape 5 is fully committed to the Joomla! project and we are indebted to Joomla! and it's community for creating this great CMS.

Again, Shape 5 apologizes for this and we have taken measures to make sure this never happens again.
