

## Support Joomla

{social\_icons}

For many of us Joomla has provided an additional source of income or even a full blown business. Joomla has enabled designers, developers and business owners to all connect and create some amazing components, templates, etc. We are happy to notice the support Joomla link on [joomla.org](http://joomla.org) and we hope that if any of you have received financial benefit from the project that you give a little back. The entire Joomla team is comprised of individuals giving of their personal time to keep the project going. Imagine how much more can be done with Joomla if it actually was fully funded and supported!
