

## New 2.5 Site Shapers Available For Download

We are pleased to announce that we have released 7 new 2.5 site shaper conversions! Those conversions include Aurora Dawn, Avignet Dream, Basics, Game Crusade, Touch of Soul, Emma Smooth and Sportopolis. These site shapers are ready for immediate download. We are continuing to work through the conversion process of the remaining templates, and we are very excited about the new endeavours of Joomla 2.5+! We currently have an amazing 52 templates and 33 extensions that are compatible with Joomla 2.5, and more to come! You can view our current compatibility list here:

Also, a quick update on the conversion of our Virtuemart extensions to Virtuemart 2.0 and Joomla 2.5. Our 5 Virtuemart extensions have reached their final phase of testing and we hope to release the final products in the next week or two for download. These conversions are much more in depth than a standard Joomla 1.5 to 2.5 conversion as much of the Virtuemart core structure was changed in the new version. Thank you for your patience while we complete these conversions. Once these extensions are finalized that completes the conversion of all of our extensions to 2.5!
