S5 Eventfull Business - Version 1.0.2

Looking for an events design? Eventfull is here and brings you two beautiful themes to choose from in one package. We have styled Eventfull to fit either a business/tech conference event or an athletic one. The design also incorporates the new full page scroll option that is being added to the Vertex framework. We have also added an option to enable a floating menu for the tablet/mobile version of Vertex.

S5 No1 Shopping Template - Version 1.0.2

Looking for a flat designed eCommerce template? No1 Shopping is the design for you! The design is packed with features ready for any eCommerce website. The full width menu is great for extension categories you may need to list. The cart button is conveniently located in the top right and is included in the floating menu option too for easy of use. We've updated the VirtueMart 3rd party stylings to a more flat look. And the design itself is clean and clutter free so your products will take the focus on your site. If you have a color that fits your brand you can match by easily changing the 2 highlight colors in the Vertex admin area.
